

1 Introduction

This legitimate interest assessment has been compiled in order to set out the reasons why Newmarket U3A processes membership information.

2 Purpose Test

Newmarket U3A requests personal data in order to be able to register individuals for membership of Newmarket U3A. The personal data provided will also be used to communicate with members regarding the activities of Newmarket U3A and to keep members informed regarding any groups or activities that they undertake with Newmarket U3A. Member information is shared with a third party processor for the supply of the Trust publication – U3A Matters. Each member has a choice as to whether they opt to pay and receive this publication and may be shared with the third party processor in relation to the maintenance of membership and accounting records (Beacon), if used by Newmarket U3A. Other than these instances and in connection with any required returns to HMRC for the purposes of Gift Aid, Newmarket U3A does not share membership information outside of the U3A. Membership information is securely held and access is restricted to those who need to process data for membership purposes. Storage and processing of membership data is done in line with General Data Protection Regulation (“GDPR”) and safeguarding requirements. Newmarket U3A operates with a data protection policy and privacy statement and has sought advice from the Third Age Trust in developing guidance in respect of our practice in relation to data protection.

3 Necessity Test

Newmarket U3A requests minimal information from potential members which includes personal details and contact details. This information is proportionate to the requirements of the U3A fulfilling its responsibilities in relation to being able to communicate effectively with its membership. Newmarket U3A would not be able to register members or process applications without the provision of a certain amount of membership information. Newmarket U3A has a duty of care to its membership and needs to retain a certain amount of personal information in order to know who its members are and which members are paid up members of the U3A. This is necessary for meeting the requirements of the insurance provision for U3A members.

4 Balancing Test

The personal data requested is that which is needed for registering and processing individuals as members of Newmarket U3A. The data requested is minimal personal data and that which is needed for communicating with members. All the data gathered is from individuals who provide the information as part of their application to join Newmarket U3A. Membership is for a period ending on their next membership renewal date (which will be the following 1st August, save for members joining in the months of June and July where their renewal date will be 1st August of the following year) at the end of which time members have the option as to whether or not they wish to renew as well as having the opportunity to update their personal information. The reasons for collecting personal information is explained to potential members at the point of joining. A copy of Newmarket U3A’s privacy statement is available to all members who wish to have further details about

how their information is used and who it is shared with. Members who are unhappy about their data being shared with third party processors are able to opt out of receiving the publication for which a processor is used. Newmarket U3A holds information securely and it will only be accessed by those who need to see it. Membership data will not be processed for any purpose other than in connection with an individual's membership. Communications sent will be relevant and targeted to the individual's membership activities. U3A members will not be sent marketing materials or information that does not relate to Newmarket U3A. Newmarket U3A Group Leaders will be informed of the importance of restricting their communications with members to that which is needed for organisation of the group. All those who process membership information for the U3A will receive an induction into the requirements of GDPR and the restrictions around data processing. In addition, volunteers will be informed of the need to keep data secure and restricted to those who need access to it.

Through compilation of this assessment, Newmarket U3A considers that it has a legitimate interest to collect, hold and process membership information. This document will be held by the Committee and communicated to the membership, as required. The assessment will be reviewed every 2 years in order to ensure that legitimate interest remains the most appropriate lawful basis for gathering membership information.
